Who We Help

Bridges to Learning builds schools and supports educational programs. Currently over half of the students at Anh Linh are supported by people like you, who give monthly sponsorships and donations which provide school supplies, clothes, haircuts, two meals a day and medical services.

As part of the 401 students we support, Anh Linh School finances the costs of 122 students who attend public schools. More than 30 destitute girls and homeless boys safely live in the school's dormitories as they pursue their education. These children are passing their Vietnam National Exams—against all odds.

Our Vision

We seek to make a significant difference in the world through:

Caring and committed donors who generate sufficient and sustainable resources.

Ensuring our revenue is best used to finance services and support for impoverished children.

Knowledgeable professional staff working in the countries where we support schools

Giving all children, regardless of age, a chance to start or continue their education in a supportive and nurturing environment.
