Dear Sponsor/Donors/Supporters,

In the 2022-2023 school year, the Anh Linh school has 222 students. 125 students are in elementary school, and 97 students are in secondary school. Around 20 students withdrew from Anh Linh during the school year. They moved back to their hometown and continue to study there, a few of them moved to another province/city.

To achieve such results, teachers work quite hard to help students understand the lesson. Because of their difficult living situation, lack of parental care and education, and poor nutrition, their learning ability is not as good as that of children studying in state schools, with good living conditions. Some children live with grandparents, no parents, or some children live with father without mother and vice versa. Most of Anh Linh's students' families live in the countryside and come to the city to look for work, so they have to rent a boarding house. Some children live in cramped, noisy, unhygienic and low-cost hostels, so there is no study space. They are not prepared to study at home and have no sense of self-study.

In addition to a learning culture, children also learn skills, learn to clean, have fun, and receive gifts on holidays: Mid-Autumn Festival, Christmas, Tet, Children's International, and Year-end picnics. A company organized for the children to have delicious meals, give them gifts, and let them have fun after a hard day of study to encourage them to try their best.

Here are some pictures of activities during the holidays. To see more pictures of the children's activities, please visit the Anh Linh School of Love's facebook page:
